

Requirements / Readings

Required Skills

- You should know JavaScript and know how to write JavaScript code.
- You should know CoffeeScript. If not learn it! It is beautiful and makes things easier for you. Just read the [CoffeeScript introduction page](#)
- You should know [node.js](#) and have some basic knowledge about asynchronous programming. If not read [this or any other guide you like](#).
- pimatic makes heavy use of Promises for asynchronous operations. So check out:
 - [What are promises and why should I use them?](#)
 - [bluebird promises API](#).

If you like videos more:

- [node.js - All your Servers are belong to us \(german\)](#)
- [node.js Introduction to Node.js with Ryan Dahl \(old but the basic.\)](#)
- [JavaScript Promises: The Basics](#)
- [How to Upgrade your Promises with Bluebird.js: a Guide and Tutorial](#)
- [Coffeescript](#)
- Do you have some better Tutorials? [Tell it us!](#).
